SMARTWALL

WIRED /MARKETING TRENDS 2018

I feel fortunate to have followed some of the amazing major changes in digital marketing and technology over the last 15 or 20 years.

WHATS HAPPENING

- UI/UX Design
- Development
- Responsive Development
- Quality Assurance

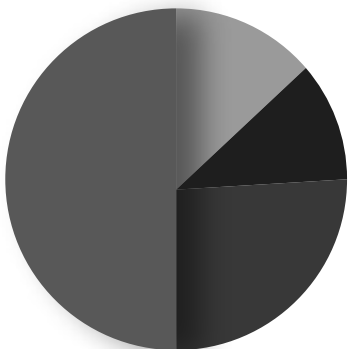

50% Target Achieved

	MARKETING TARGETS 2018	CODING	QUALITY	CORE TEAM
 John Smith		30%	10%	60%
 Susan Miller		30%	10%	60%
 Luke Cage		30%	10%	60%
 Susan Miller		30%	10%	60%

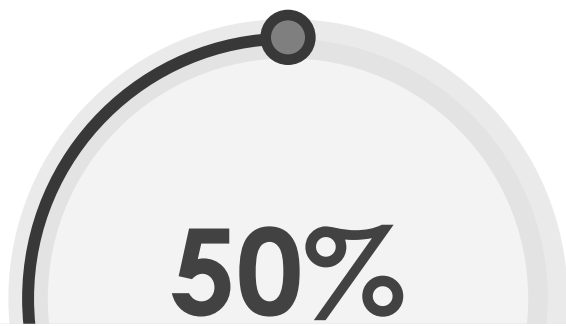

Why Smart Wall?

SmartWall brings your large screen displays to life. Dynamically push out information to everyone. Get feedback. Work together on a single topic.

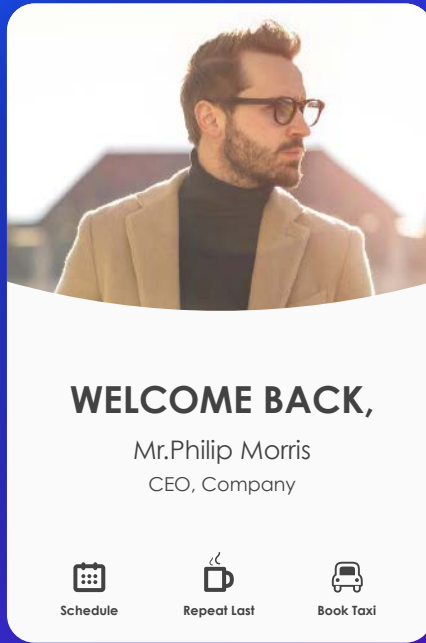

WHATS HAPPENING

● Project 1

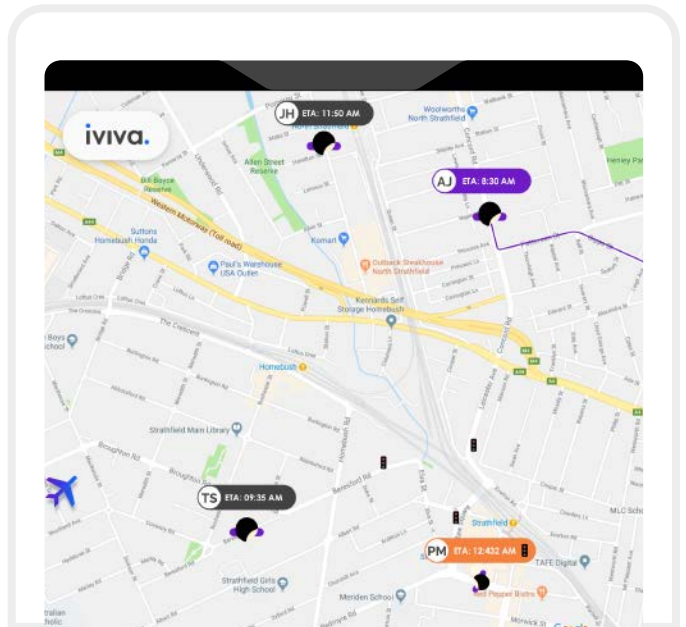

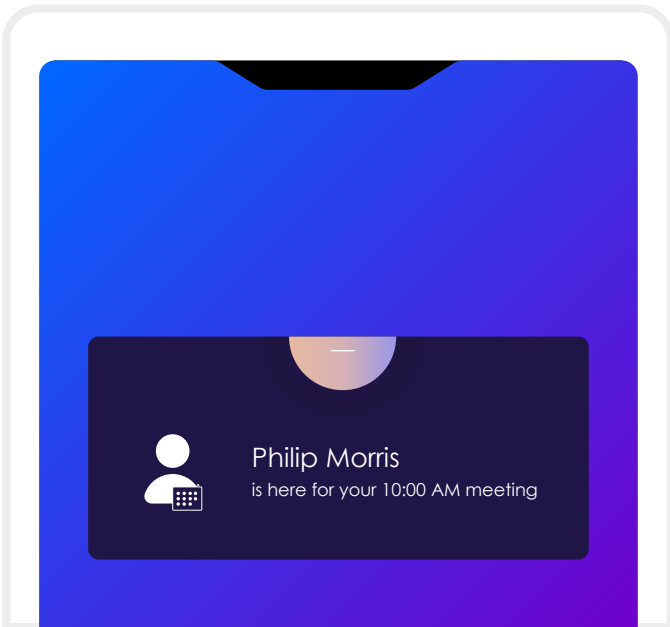

50%

Greet and Inform.

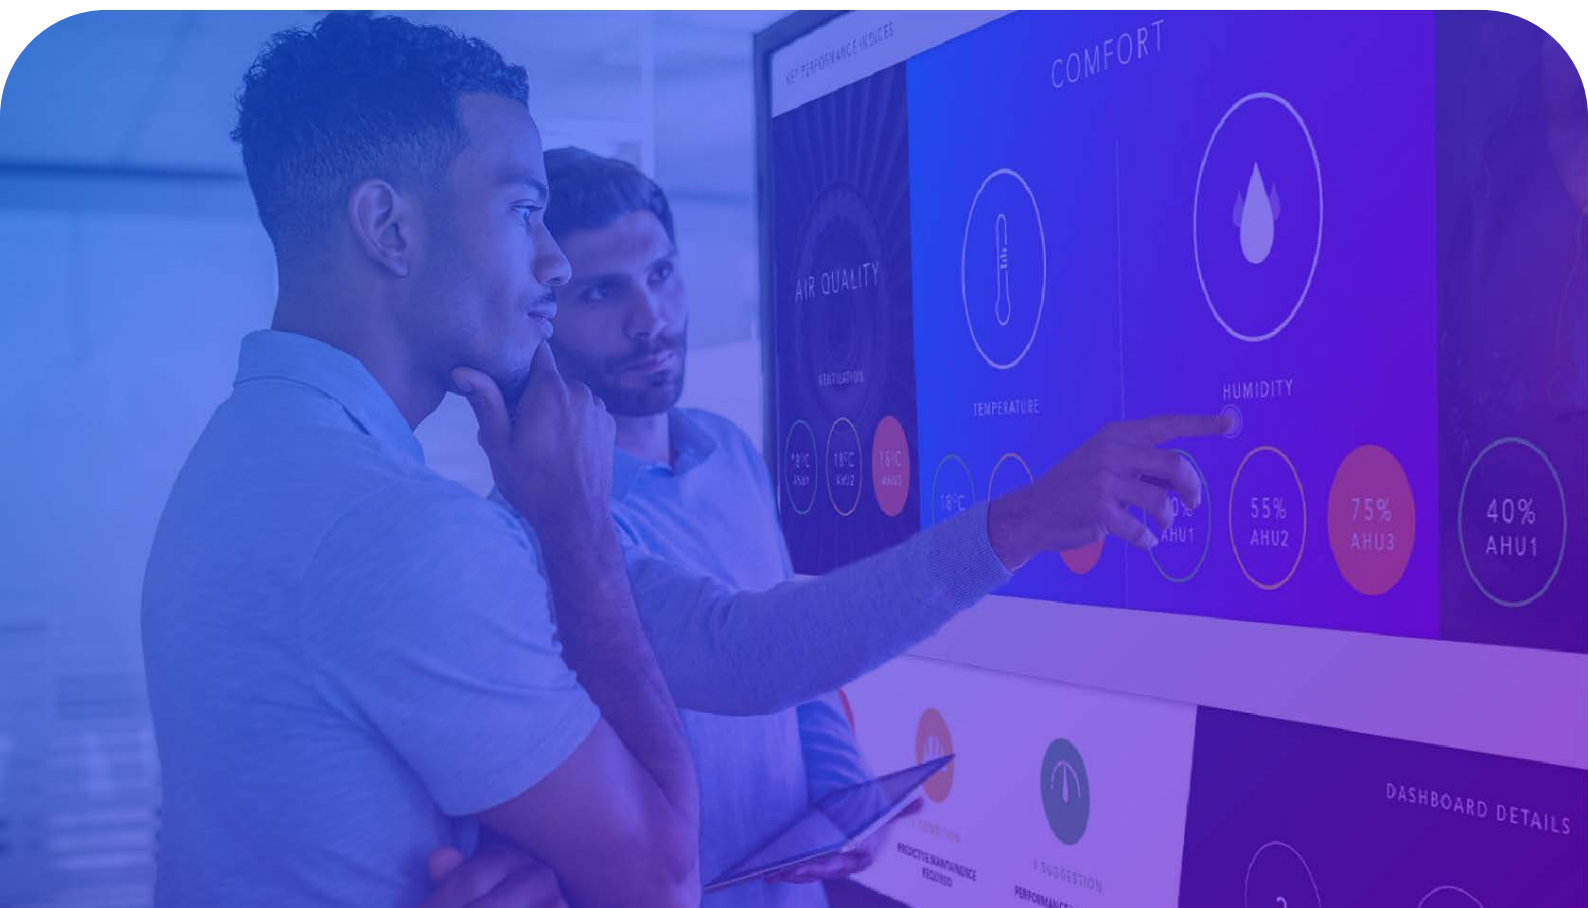

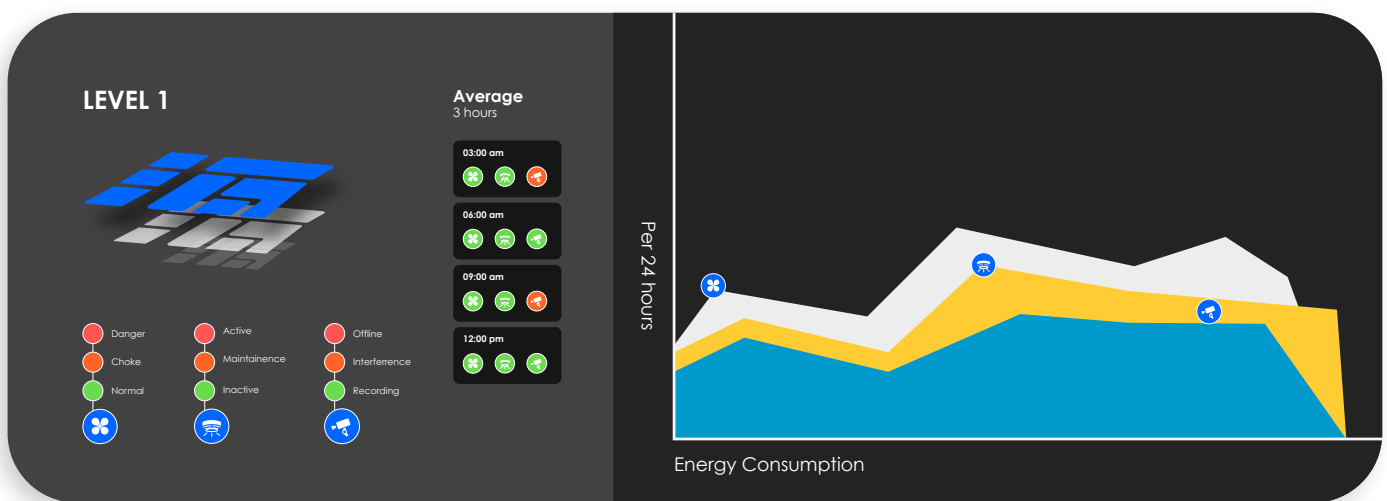

With SmartWall, your public signage becomes more informative and personalized. Greet guests. Let visitors check-in and give them the information they need. React to events and emergencies and provide contextual information in real-time.

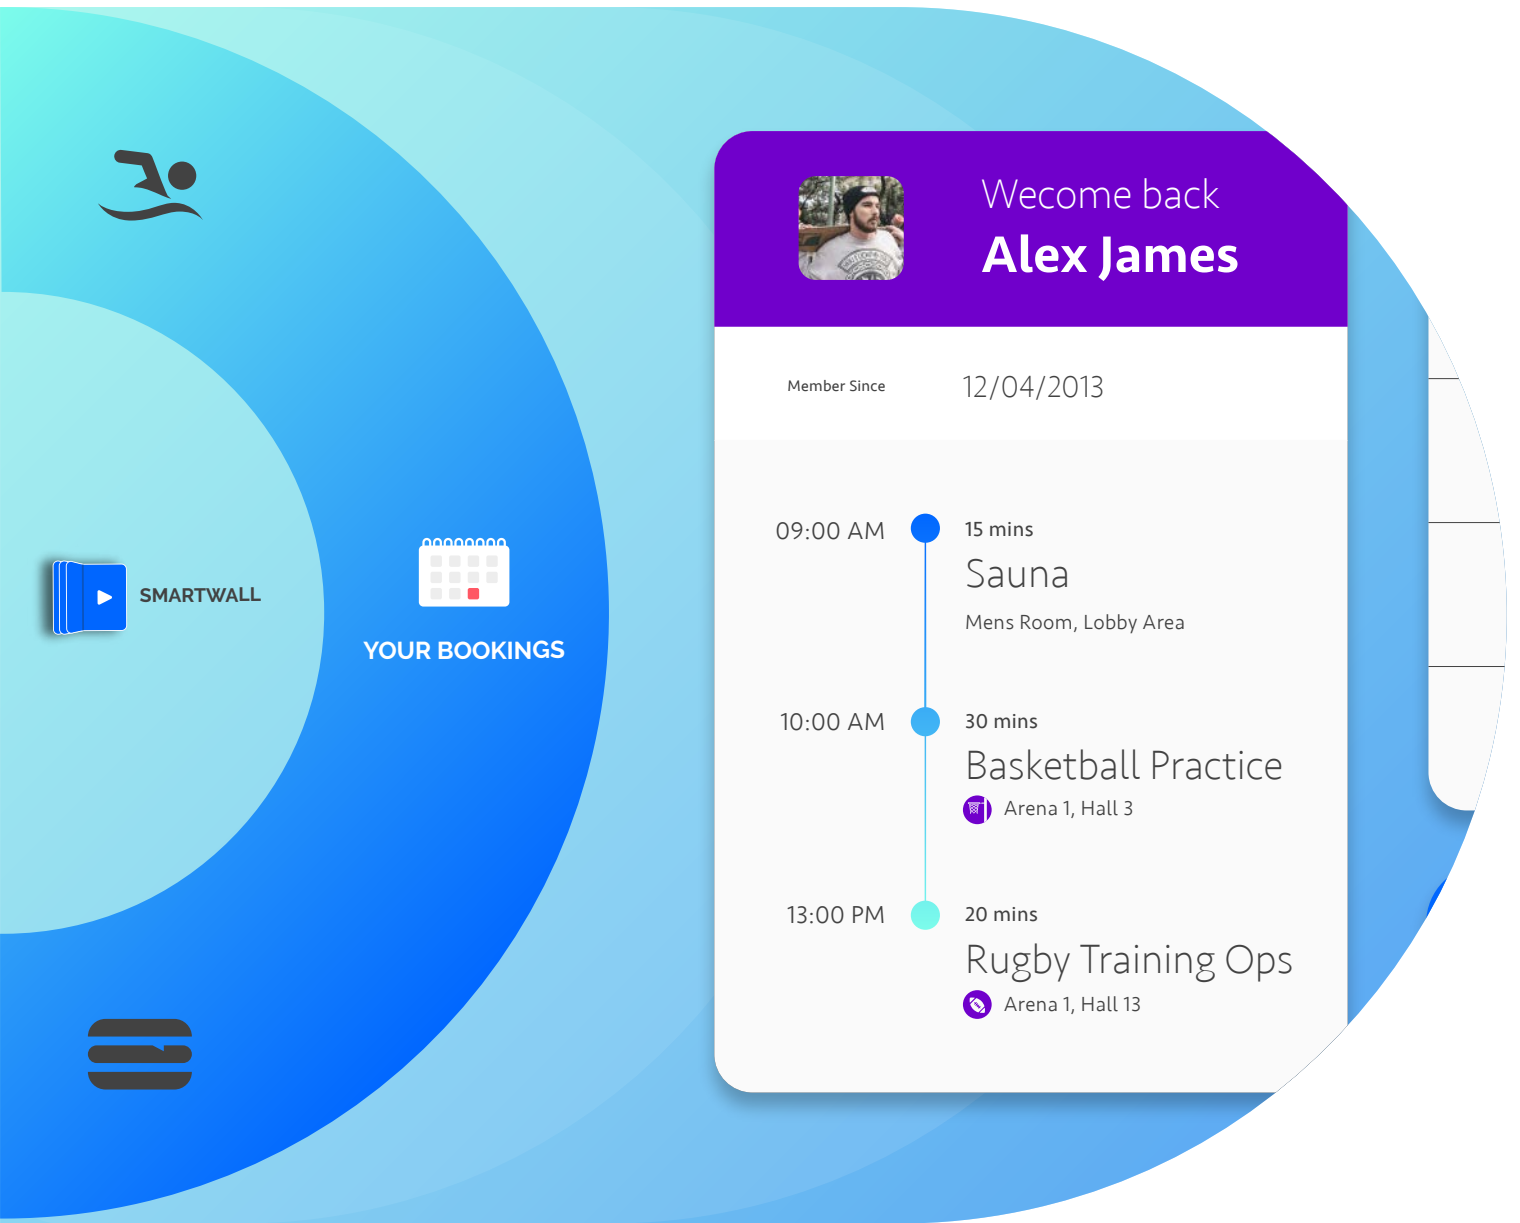

Stay on top of things.

SmartWall is great for gathering information from anywhere in your environment and presenting it in a streamlined way. Create walls to monitor comfort and health. Give everyone insight and incentives to save energy. Dynamically switch to security when an incident occurs.

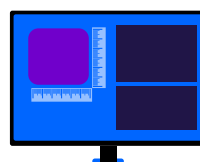

SmartWall will give you what you need when you need it.

Expand and Envision.

SmartWall isn't just a set of tools. Its an ecosystem and platform running on iviva. Compose your own displays using our library of widgets. Make your own widgets. Control your own flow and data sources through Lucy. Integrate any peripherals like RFID scanners or access card readers. Works with any HDMI display. Made interactive through touch screens.
